DESCRIPTION:

Entel Battery Packs fall into Packing Instructions PI 968 and PI 969, 'Excepted' under Section II and Section IB of IATA 56th Edition, 2015 Dangerous Goods Regulations (DGR).

When Shipping only 1 – 2 battery packs (w/o equipment) description is "UN3090 IATA DGR Section II PI968"

When Shipping more than 2 battery packs (w/o equipment) description is "UN3090 IATA DGR Section IB PI968"

When shipping batteries packed with equipment description is "UN3091 IATA DGR Section II PI969"

INFORMATION:

A completed "IATA Lithium Metal Battery Label" must be attached to all packages. All batteries shipped on their own must have a Cargo Aircraft Only Label attached and for Batteries in Section IB a Class 9 Hazard label must also be attached.

Documentation requirements apply (refer to courier for specific requirements).

Packaging regulations apply (refer to courier for specific requirements).

In addition, IATA Regulations limit weight and quantities as follows:

If shipping just Battery Packs, maximum weight per package is 2.5Kg gross weight.

If shipping Battery Packs packaged together with Radios, Battery limit per package is one Battery per Radio, plus 2 spares per Radio, maximum weight per package is 5Kg net weight

FOR REFERENCE:

Lithium content of the Battery Pack ≤ 2.0g

The cells within the ENTEL Battery Packs meet the requirements of the UN Manual of Tests and Criteria, Part III, subsection 38.3

ENTEL UK Limited, 320 Centennial Avenue, Centennial Park, Elstree, Hertfordshire WD6 3TJ, U.K.
